## Egg Art

Here's what you do to make egg art:

1. Blow up an oval balloon.
2. Tie a long string to the end of the balloon and tie the other end to something strong (like a light fixture) so the balloon can hang down. Place newspapers on the floor under the hanging balloon.
3. In a small bowl, stir  $\frac{1}{4}$  cup white glue and  $\frac{1}{4}$  cup warm water together with a spoon.
4. Dip colored string, embroidery floss, or thin colored yarn into the glue mixture.
5. Wrap the string all over and around the balloon until it covers the balloon as shown in this picture. Let this dry for several hours until the string is hard.
6. Pop the balloon with a needle, gently peel off the balloon, and tie the egg shape at the top with a piece of clear plastic fishing line. Daub clear nail polish on the knot so it won't untie. Hang your egg art in your favorite spot!
