

# Reindeer Paper Bag Puppet

## Supplies needed:

- Paper bag
- Brown construction paper for antlers plus some other colors for nose, eyes, mouth
- Glue
- Scissors
- Markers or crayons
- Optional - googly eyes, red pom poms, yarn for fur

Trace your hand (to the wrist) twice on brown construction paper. Cut out the hand shapes. Glue the hand shapes onto the paper bag (at the top corners of the fold over part) You can either glue the hands on the front of the fold over part or behind the fold over part.

Add facial features. Eyes, nose, and mouth can be drawn on or created with construction paper. You can also use “googly eyes” and a red pom pom for the nose. Have fun!
